Souls Remembered has developed an easy to use online format to create a warm and beautiful Visual Life Story honoring that special person in your life. Our goal is to help you create a personal, lasting memory to share with future generations.

We will create the story using pictures, videos, audio and other information that you provide. You can choose from a selection of backgrounds and colors to enhance your story. One of our support team members will help you edit your story until you are fully satisfied with it, and then maintain it online for years to come.

What makes **Souls Remembered** different:

- No advertising
- No distracting side bars
- Personalized content
- Best-in-Class support
- Keep your memorial private or make public

Souls Remembered is an online service to honor, celebrate and “memorialize” your loved one through a *Visual Life Story*. The story is designed to help you keep those special memories alive, which are then easily accessible and available to share if you wish. Having and sharing these memories is therapeutic and healing.

“My husband and I found ourselves both smiling and crying as we selected photos, short videos and wrote about father. We miss him so much. We both had no idea how much better we would feel after the story was created. It has been healing. Thank you.”

~ Susan and Randy

View our website to see our full array of services. A **Souls Remembered** story is the perfect way to share a loved ones memory for generations to come.

TELL YOUR STORY
Memories that transcend for generations

Story

Creating a **Souls Remembered** story honors and celebrates the memory of a special person in your life who has passed. The story helps you heal. The “process” of choosing images, videos and writing the words is therapeutic, powerful, and cathartic. Customers repeatedly tell us how rewarding and positive the process is.

Our stories tell of the deceased and your relationship by keeping their memory alive and accessible. This web-based service can be **private or shared** with others. It can be viewed on your phone, tablet or computer. The story is designed for both the tech savvy as well as those who are not. Every customer has access to a support team member who can help you create your story.

Souls Remembered Visual Life Stories are a personal retrospective on ones life. You will not see commercial ads or enticements on any of the stories.

Design & Distribution

Souls Remembered gives you the option of sharing an in-depth account of ones life story, or making a short statement of life. You will images images and videos (if you choose) to help create this collage of memories. Images in the photo gallery “pop” off the page as you scroll over and can then be opened to their original size with a single “click”. The story is designed to be simple and easy to navigate. You choose colors and backgrounds that make it unique to you.

You can choose between a Visual Life Story or Retrospective of Life package. A support team member will work with you to create the story page. You choose the content, send it to us using a very easy to understand form, and we will put it together. As always, we will work with you to “fine tune” until you are pleased.

Revisiting the story and sharing it with friends and family has never been easier. If you choose, the story can be shared across all popular social media platforms as well as emailed directly from the story page itself.

What's Included

Each story is unique in its presentation. Depending which option you choose, you can have different media types and design options. Below are some of the options that are available:

- Header images at the top of your story
- 4 beautiful color themes to choose from
- Sections of text to tell your story
- Photo galleries
- Embedded videos
- Hosted videos
- Embedded audio
- Military awards (if applicable)
- Giving / Charity section
- Thoughts & Prayer section
(allows others to comment)

While there are additional options available, you need only choose the options that you want. We are here to assist you in creating a story that truly reflects your memories.
